### **Herd Classification Fees**

REWARDS Herds - No additional fees Non-REWARDS Herds - \$110 minimum herd fee or \$12 per cow Special - \$500 plus \$12 per cow  
*If your herd is not enrolled in the ABA REWARDS Program, the minimum herd fee of \$110 is required at sign-up.*

I prefer the following payment option:

1. \_\_\_\_\_ Enclosed is payment for the \$110.00 minimum herd fee (Non-REWARDS Herds)
2. \_\_\_\_\_ Bill my credit card# \_\_\_\_\_ MC \_\_\_\_\_ VISA \_\_\_\_\_ Exp. Date \_\_\_\_\_ CID Code \_\_\_\_\_  
Address (if credit card billing address is different from above) \_\_\_\_\_

Authorizing Signature \_\_\_\_\_ Date \_\_\_\_\_

### ***Additional instructions for completing application: (return to the ABA office by the date noted on the classification schedule)***

1. Enclose a copy of your DHI test sheet including cow registration numbers. If not on test, list on the application form all registered cows in your herd that have freshened at least once. Also list all eligible bulls two years of age or older that you wish to have classified.
2. Animals required to be classified include all first lactation females and all unscored Registered females.

*I hereby make application to have my herd officially inspected and classified, subject to the rules of the Ayrshire Breeders' Association Linear Type Traits Appraisal Program. In making this application, I hereby agree to comply with the rules and bylaws of the Ayrshire Breeders' Association (ABA) and all other rules and regulations of said Association and its Board of Directors. I also give permission to ABA to obtain herd inventory information from my Dairy Records Processing Center (DRPC) for animal prelisting in the classification computer.*

Signature \_\_\_\_\_ Date \_\_\_\_\_

Please list below the information for all animals to be classified. If you are sending in a copy of your DHI herd list, you only need to include heifers that will be fresh but are not on the DHI sheet.

# Linear Type Traits Appraisal Program

## Authorization

The Bylaws of the Ayrshire Breeders' Association establish the authority for a program of Herd Classification. The acceptance of an application for classification is at the discretion of the Association and is not a matter of right accorded a member, but is a privilege to be granted or refused at the discretion of the Association. Matters not covered by these rules shall be administered by the Executive Secretary and that decision shall be final.

The Ayrshire Breeders' Association has adopted the Uniform Type Traits Appraisal of Ayrshire cattle. The primary objective of this program is to evaluate specific type traits of Ayrshire cattle and to obtain and publish records for the type and conformation of Ayrshire cattle for the improvement of the breed.

The Ayrshire Type Traits Appraisal Program is administered by the ABA. Applicants must contact the office at 614-335-0020 to schedule an appraisal during the published 8-month rotation cycle.

## Eligibility & Responsibility of Applicant

Animals must be registered in the Herd Registry of the Ayrshire Breeders' Association. Applied for animals may be evaluated with such classification scores becoming official after the certificates of identification for such animals are issued. Canadian animals will be eligible for classification only after they have been issued a U.S. registration number.

The applicant for herd classification shall make available to the classifier the Registration Certificate for all eligible cows upon request.

## Eligible cows are defined as follows:

1. All registered unscored females, regardless of age
2. All first lactation females
3. No dry cows shall be eligible

Cows may not be moved into a herd or out of a herd for the purpose of inclusion or elimination from the herd's classification. Any violation of this will be reviewed and is subject to suspension of classification participation.

No animal shall be eligible for reclassification if that animal has been presented for classification within 60 days, (not to include cows marked "Not in Condition"). The evaluator shall designate which animals are not in condition. In cases where animals are unknowingly re-scored in this

time frame, the latest score will not be recorded in the performance file of the ABA.

Cows en route to a consignment sale to which they are consigned are no longer considered regular members of the original herd. They are exempt from classification, with exception being if such animal is temporarily housed at another herd that classifies while the cow is at that farm at the preference of the owner of record.

Cows which have been sold, either publicly or privately, which, while in transit, are temporarily being housed in another herd may be classified at the preference of the new owner of record.

Any cow owned entirely or partially by the applicant housed in a non-classifying herd is subject to classification at the discretion of the Executive Secretary.

## Permanent Classification Scores

A cow's score becomes permanent if she has been scored in her third lactation or later, and has been scored previously in an earlier lactation. Both of these must apply.

A cow's permanent score can be raised in later lactations, but not lowered, at the evaluator's discretion.

## EX Ratings and Multiple E Designations

No female may be classified 90 points or more (Excellent) until she has calved normally (full-term pregnancy) for the second time and has one completed lactation. The applicant is responsible for providing the accurate lactation for all cows.

## Maximum Classification Scores

The maximum scores for each lactation are as follows:

- 1st lactation – 89
- 2nd lactation – 91 (Effective March 1, 2014)
- 3rd lactation – 94

The maximum final score is 94 points.

*The evaluator must verify that the cow has met the requirements for this score, either by contacting the ABA office or through the online pedigree system, prior to giving her this designation.*

## Excellent Designations

Animals may receive multiple "E" designations (generated by computer) if following Excellent in more than one of the following age brackets:

- 1: Up to 5 years
- 2: 5-01 to 7-00
- 3: 7-01 to 9-00
- 4: 9-01 to 11-00
- 5: Any subsequent 2 year period as long as the cow has calved normally within this

time period

To be eligible for an additional "E", the cow must have calved normally within the last three-year period.

## Classification of Bulls

Males are eligible to be classified. The bull must be 18 months age or older at the time of classification. The classification of bulls is optional with the owner.

## Request for Reclassification

Applicants may apply for a reclassification when they wish to dispute the herd's classification. The request to reclassify must be made to the ABA within seven days of the original classification being disputed. Only those cows offered in the original classification are eligible for reclassification.

## Termination of Classification

In the event that a classification is terminated before its completion, the evaluations given up to the point of termination will be voided and application for future classifications will not be accepted by the ABA until favorable action by the Executive Committee. No fees will be refunded.

## Report of Herd Classification

A Classification Report from the ABA will be mailed to the applicant upon receipt of the classification data from the evaluator. In addition to the report, labels are issued for application to registration papers that show animal's name, registration number, date of classification and final score.

## Herd Classification Fees - Females

(Effective July 1, 2013)

REWARDS Herds

No additional fees

Non-REWARDS Herds

\$110 min. charge, or \$12 per cow

## Herd Classification Fees - Males

(Effective March 1, 2015)

REWARDS Herds

No additional fees

Non-REWARDS Herds

\$130 min. charge, or \$20 per bull. If scoring females, no additional herd fee.

Late Fee

\$100 late fee may be assigned if the sign-up date has passed and schedules have been determined.
