

# Ayrshire Breeders' Association Cow Performance Index (CPI) for Production, Type and Health Traits

The CPI formula is based upon six traits with the following emphasis: 25% fat, 35% protein, 25% type, 6% daughter pregnancy rate (DPR), 5% udder depth and 4% somatic cell. Milk yield is not included as a separate trait in the formula because it is highly correlated to protein and fat yields. The top 125 cows are listed below.
